Mr. Gerald Murphy, Assistant Principal

March 9, 2021

To Whom It May Concern:

Mr. Jermaine Jones participated in our yearly College and Career Day event this school year. Since our students are attending school fully remote, our event was held via Zoom.

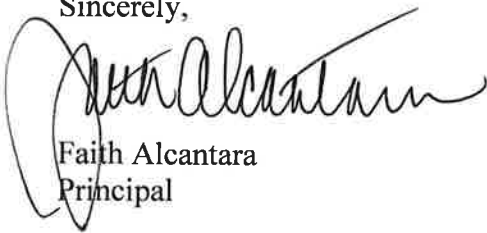

Mr. Jones was “on fire” in his presentations virtually just as he has always done here in person for our yearly event. He fully engages our students through his words of wisdom and encouragement. My middle school students are usually the group that we have him speak to. His insight is most relevant to this age group in helping them to understand how to seek and take advantage of every opportunity presented to them.

I am so appreciative that Mr. Jones has always accepted every invitation to speak to my students at Heywood. My students remember him and look forward to learning from him each year.

Additionally, for the past two years, Mr. Jones has sponsored an essay-writing contest for my students in grades 3 – 7, offering an incentive to five winners. This is a great opportunity for our students to hone their writing skills and draw a connection between the school and greater community.

We are looking forward to Mr. Jermaine Jones coming back to Heywood next year for our College and Career Day 2022!

Sincerely,

Faith Alcantara  
Principal
